DETAILED ACTION

ART REJECTION:

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1,12, and 17-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Huey et al(6,952,163).

-- In considering claims 1,12 and 17-19, the claimed subject matter that is met by Huey et al(Huey includes:

- 1) the threat scanning machine is met by the checkpoint(10);
- 2) the control computer is met by the control computer(24) which communicates with the checkpoints via network(see: column 15, lines 5-9) ;
- 3) the system being dynamically reconfigurable is met(see: column 18, lines 15-25).

Allowable Subject Matter

3. Claims 2-11, and 13-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
